**Gen. O. O. Howard on Reminiscences of the War.**

"The visions of the past crowd upon me and tempt me to glorify the work done at Chattanooga, of which I formed a humble part; but for the sake of a higher purpose I forbear.

"It is said that the battle of Gettysburg, while the strain was on, was felt by Abraham Lincoln's soul more deeply than if he had been present, and that it was the means of a spiritual change wrought in him, which ever after gave him a more complete consecration of himself to the will of the Lord his God.

"My last visit, comrades, to the field of Gettysburg, taken in connection with the friendly intercourse with representative men who had been opposed to us on that ground, has greatly changed my attitude. If not my conviction of right, towards the Confederates who fought us. I was looking into Longstreet's face, while Sickles was leaning, supported by his crutches, against an enormous rock, when I said something concerning the demands of duty. Gen. Longstreet answered me reflectively: "We must be guided by the light within us; I have tried all along to stand firm to my conviction of duty, according to the light I have had." These may not be his exact words; they are the substance; they set me to reflecting upon the counterpart of our Union Volunteer—namely the Southern Volunteer.

"He was educated from boyhood in certain political doctrines, certain interpretations of the constitution of our country; he was part and parcel of it. We, the champions, of a free Republic, could not allow him with his comrades to follow the logic of his convictions, because they led to the destruction of the Union; the breaking up of our country; the perpetuation not of human liberty, but of human slavery. We, ourselves, however did not see at the outset all this with divine clearness. It took a clarification of storm and disaster, yea, was it not as necessary as that Christ should die on the cross for the redemption of men, that our land should have been baptized in the blood of her sons?

"I have lately compared notes with a prominent Confederate leader, and find that we have come together, unconsciously, no doubt. Here is where we now agree. The war was a necessity. Nothing human could have

warded it off. Slavery was the cause of division. It was necessary that it should be completely rooted out. The providence of God went far beyond the projects of men in its destruction.

"Everything in our political method, in all parts of the country, is not yet all right. There are ballot stuffings; there are corruptions of office; there is bribery in elections; there is cheating in legislation; there is selfishness in great monopolies; and there are other political dangers; but the fundamental institutions remain to us—namely: A church, or a set of churches, where every man is free to worship God according to the dictates of his conscience; a school, or set of schools adequate to the necessities of a great people, well established and free to every child; and an American home, which in its purity and simplicity cannot be surpassed by those of any other people on the globe. These, with our free ballot, are our peculiar institutions; they constitute the nucleus from which radiate untold blessings and almost limitless streams of development. All American volunteers of the whole land will preserve them.

"Some months ago I stood again in Atlanta. My late comrades of the war gave me a reception, among them one, a Confederate leader, bearing the great historic name of Calhoun, with the Mayor, came to the hall and spoke words of welcome. He said, among other things, "General, however different our feelings and our sentiments may be on some topics, please understand this fully, that we who once fought against you are not meditating another rebellion. We have a common interest, a common country, a common flag. Should these be in danger, should their honor be in question, so that Columbia would be constrained to call men to arms, we would all be side by side with you in the common defense." These were his words as I recall them, spoken with all the feeling of a strong man of noble heart and all the eloquence of a Southern orator, like Calhoun.

"It is coming into my heart this year, as it came into the heart of Gen. Grant near the close of his life, to speak only kindly words. Lest we might injure the manhood of the noblest men of the South I would press no chalice of exaction to their lips; I would not even boast of a victory which cost us so dearly to win; I could not impute had intentions to any but known wrong-doers; and I would do and say those things which are tender and kind, which I know our Lord through his spirit would smile upon. The black men are advancing; the schools are almost universal; his home is being improved

wherever vital religion and knowledge have found their way. Yes, in general, the battle for the right, so hard to wage, is steadily pressing back the hosts which are opposed to truth.

"Sometimes, comrades of battle, it seems amid our aches and pains and sicknesses and weaknesses as if our young people had almost forgotten us, did not half appreciate our work, our sacrifice, our suffering, our principles, and our hopes. No, they cannot do so, my comrades, this is part of what we gave, in order to transmit a magnificent heritage to our children, and children's children. God alone makes up the difference; God alone adjusts the balance of justice; and He only is able to fill the soul of every waiting comrade with fullness from His own abundant perennial fountains.

"I covet for our comrades of war above all things something that is beyond the love of wife and children, beyond the appreciative sympathy of grand-children, yea, much more—namely: a life invisible but immortal, born within the soul; a life which shall have a power to make our companionship complete and perpetual; which death cannot dim; which will expand with the ages. It is not a dream, it is described by the Great Apostle of love and charity in these words: "I am Alpha and Omega, the beginning and the end, I will give unto him that is athirst of the fountain of the water of life freely. He that overcometh shall inherit all things, and I will be his God, and he shall be my son.

"Grant and Thomas, Lee and Jackson understood this; they have tested the promise. Hundreds of thousands of comrades have gone on before. Let us, too, have the safe shield, bright and glistening as Christ can make it, when we join them there."

## OUR NEIGHBORS.

### Allegan County.

The members of the C. J. Bassett Post, G. A. R., have each been presented with a cane, by the firm of H. Stern & Co.

The report of the prosecuting attorney shows a decrease of forty-five per cent in criminal cases in Allegan county, since the local option law went into effect.

Gazette: Complaints are made from many sections of the county of damage to the growing wheat by the Hessian fly. While some localities report but little injury or none, in others the crop is so seriously hurt that some declare it will not yield more than ten per cent of the usual amount. Quite likely the total loss is, as is general in such cases, considerably overestimated but some farmers will lose heavily beyond doubt.

The H. C. Ref. church of East Saugatuck has nominated the following trio: Rev. J. Groen, of Zeeland; Rev.

J. B. Hoekstra, of Muskegon; and Rev. J. Robbert, of Roseland, Ill.

The graduating class of the Allegan high school consists of one young lady and nine young gentlemen.

Ball bearing vehicles have been introduced into Allegan by E. B. Born & Sons. They have a couple of surreys fitted with wheels containing such bearings, which are built in the hub, and are said to be absolutely dust proof. The principle is similar to that used in bicycles.

The yellow commissioners of Lake-town township are preparing for an active campaign this year against the orchardists who ignore the yellows law. Some effort was made in that direction last season, but this season the offenders will be handled without gloves. The disease has not yet made serious inroads in that township and the authorities are determined that it shall not.

J. H. Kropfshot will soon move from Overisel to Hamilton, where he will spend the remainder of his life.

The grand opening of the Allegan Athletic Association Park will take place on Thursday and Friday, June 18 and 19, 1896. The new three lap bicycle track is located in such shape that it enables the spectators to see the races at all times. Crack riders from all over Michigan will be here, and as a result hotly contested races are promised. The prizes given to the winners will be diamonds. A game of base ball will take place between Allegan and Osego for the county championship and gold. There will also be a horse tournament for gold. It will be the event of the season.

### Zeeland.

Mr. and Mrs. A. G. Van Hess celebrated their 40th wedding anniversary Monday.

Workmen have been engaged to clean up the debris of the De Pree & Elenbaas factory. It is still unsettled whether or not the factory will be rebuilt. The loss to the firm was too heavy for them to do it alone, and the project of organizing a stock company is being discussed among our citizens. In default of such organization the return of Mr. Wichers from Europe will be awaited he having talked somewhat of buying before he left.

The Zeeland Furniture Co. have purchased of the Jensen Mfg. Co., a new boiler and an 180 horse power automatic engine to replace the old one.

Dr. Wm. Van den Berg, who has been in ill health for some time, the result of a recent attack of la grippe, is at the U. B. A. hospital, Grand Rapids, to seek rest and medical aid.

At the special school meeting the proposition to bond the district for \$3,000 to enlarge the present school building, was defeated. It required a two-thirds vote to carry, and the canvass showed three less than a majority, 79 for and 82 against. Another special meeting has been called for June 4 to submit a similar proposition with the amount reduced to \$1,500. This, it is feared, will in turn be defeated by the friends of the former proposition. The fact is Zeeland has of late years become a sort of Mecca for retired farmers, and as a rule "they're agin appropriations."

Henry De Kruff will not move to Holland. So says the News.

The C. & W. M. depot was burned nearly a year ago and we are still getting along without one.

### Fennville.

President Raymond is quite enthusiastic on the subject of tree planting and has set nearly five miles of shade trees around his several farms.

Herald: Fruit growers are but human and it's an odd day when everything is satisfactory. With frost, hail, too much or too little rain, curculio and fungus diseases to aggravate them they usually find something to worry over. This year, when nothing very serious stands in the way of a monstrous crop of all kinds of fruit, those inclined to grumble look forward to the over-production and consequent low prices which they are sure will result. However, too much fruit is better than none at all.

A final test was made with the new fire engine, Wednesday evening. A sham building was erected, filled with barrels and boxes and saturated with oil, when it was ignited. The flames were at their worst when the chemical part of the engine was turned on and it thoroughly extinguished the fire in twenty five seconds. The fire was then rekindled and the water engine used, which did the work in fifteen seconds.

In view of the prospects for a mammoth crop of fruit in this belt this season, it is highly important that additional means for disposing of the crop should be provided.

The residence of Charles Atwater was burglarized last night and two toy banks containing about \$12 were taken. Nothing else seems to have been sought after, although the secretary on which the banks stood contained a large roll of bills. A well-grounded suspicion is entertained as to the identity of this bank robber.

A non-partisan mass meeting was held at the Fennville Opera House Sunday afternoon. Dr. W. H. Bills and Prosecuting Attorney Fish of Allegan were present and addressed the public on the local option law.

### Saugatuck.

Bosman & Pieters have opened their new clothing store.

The family of Lewis Smith have returned from Holland and are occupying their residence in this village. Lew is engaged again as engineer on the steamer Watson at Holland.

The proprietors of the new brickyard are working hard to fill orders, as more brick are used this season than last.

The tug Myrtle will carry strawberries to Grand Haven to transfer them to the Milwaukee boats, thus giving us a Milwaukee outlet for small fruit.

The tug Greyhound, which has been engaged in the fishing business at St. Joe this spring, has completed her work there and is expected to run between this place and Holland this season.

The blacksmith on the dredge Farquar, which is at work in the harbor, was struck by a breaking chain last week, and was badly hurt.

### Ottawa County.

The Nunica schools will close with appropriate exercises June 5. Geo. A.

Farr of Grand Haven will deliver the address.

Geo. Lawbach of Coopersville attends the National Prohibition Convention at Pittsburgh, this week, as a delegate from the Fifth district.

The Republican town committees of Robinson and Olive will hold a joint meeting at Robinson village June 12.

Aloys Bilz has bought the W. C. T. U. Hall, at Spring Lake, which will either be moved to Spring Lake Beach or be turned into a double dwelling.

Miss Mary Mulder has been retained as principal of the Ferrysburg school.

Spring Lake will vote on bonding for \$5,000 for water works improvements.

Hiram Potts has been quite sick in Detroit for some weeks past. He is now in the Upper Peninsula feeling of the political pulse for the Detroit News.

S. R. Sanford, who was sheriff of Ottawa county in 1857, is still a resident of Muskegon.

### Grand Haven.

E. T. Pennoyer for some time connected with the Cutler House and at one time head waiter, succeeds Chas. S. Dodge as landlord of the Hotel Wierenga, Muskegon.

The common council has purchased two lots for a city wood yard, paying \$700 for them.

The bicyclists of this city had a grand lantern parade on Monday evening.

Game wardens Brewster and Hammond made another raid upon Grand Haven fishermen Saturday. Four firms were arrested and paid each \$12.50 fine and costs. One of them, Obeck & Co., have bills from their net firm in which the nets in question are billed as of legal mesh, so trouble can be expected. All the illegal nets will probably now be burned. The nets of the well known firm of A. A. Fisher & Co., were found to be all right in every particular.—Tribune.

There seems to have been a reaction in the Pingree movement here and the boomers are impatiently waiting for the "governor" to come and brace it up.

By recent ordinance the common council has prohibited bicycle riding on all the sidewalks. The ordinance went into effect last week, and the first wheelmen to defy the law have been convicted and assessed the minimum fine of \$5 and costs. This city abounds in sandy streets that are practically impassable for bicycles, but while there are several hundred riders here, the new ordinance is meeting with general approval. The wheelmen have already set to work for the improvement of the streets, and it is believed that while the law may seem a hardship at first, the ultimate result will be beneficial.

The case of the People vs. Will E. George, charged with timber stealing, was tried Monday for the third time, before Justice Pagselson. On the two former trials the jury failed to agree. This time they brought the respondent in guilty, and he was fined \$45.

## TOWNS TORN UP.

### A Cyclone Practically Destroys Oakwood and Thomas.

#### It Kills a Great Many Persons—A List of Forty-One Deaths Published—The Loss of Property Is Enormous

Detroit, Mich., May 27.—The cyclone which devastated the northern portion of Oakland county Monday evening swept a path half a mile wide and 16 miles long from west to east, clearing the earth of nearly everything movable. Forty-one persons were killed outright and 72 were injured, some of whom will die. The list of killed and injured at the various points, so far as known, is as follows:

No lives were lost, but the following 12 were injured at Mount Clemens.

Miss Anna Belle Teske, left arm broken, right arm injured, skull fractured.

**Work of the Storm Near Ortonville.**  
The cyclone first struck earth six miles west of Ortonville, and passed half a mile north of that village. In these six miles of devastated country before Ortonville was reached, 15 persons were killed and about 20 injured; some fatally. The first house to feel the effects of the storm was that of Joshua Johnson. The storm had not obtained all of its fury and the building was only partially demolished. Mr. Johnson escaping injury and his wife and baby being only slightly injured.

A mile further east stood the home and barns of William Mitchell. Not a trace of them is left but the foundation walls. Mrs. Mitchell, her son Claude and baby, Jay Mitchell, nine months old, were instantly killed. The father was seriously bruised and internally injured and will probably die. A big silver was driven into the center of his forehead. All of his stock was killed. Don, another son, is seriously hurt.

There is nothing but foundations to show where the home of Abram Quick, who lived across the way stood. Six occupants of the house were killed and one was seriously injured. Prescott Wilkins, one of those killed in the Quick home had reached there on a visit but an hour before the cyclone tore its way through. The home of Henry Flamboy was next destroyed and injured. A mile east of Flamboy's the cyclone demolished the house of John Porritt. The death list in this home reaches four. The wind cloud passed on and next wrecked the home of Benjamin Westby. Mr. Westby, his wife and two children were buried in ruins but all were gotten out with severe injuries. John Prost was the next victim of the storm. His house was completely wrecked and his wife seriously hurt. The home of John Milkie, on a line with Ortonville was unharmed, but his barns were wiped out. Mr. Milkie and his son John, aged 18, were in a barn when it was demolished. The son was instantly killed and the father is in a critical condition.

**Little Left of Oakwood.**  
In the next half dozen miles between Ortonville and the little settlement of Oakwood the cyclone seemed to lose some of its force, or the farmers living in that section were particularly lucky. The cyclone tore over all the houses and most of the residences were left in ruins. Nine persons were killed in the village and many injured.

**Storm Separates.**  
The three mile stretch from Oakwood to Thomas is a scene of heartrending desolation and wreckage. Everything in the path of the cyclone was leveled. In and around Thomas the death list is large and many are injured.

After completing its work of destruction at Thomas, the cyclone evidently arrested, one section going northeast and doing an immense amount of damage be-

tween Thomas and Dryden in Lapeer county, and the other following a southeasterly direction to North Oxford.

After leaving North Oxford, the path of the southeast cyclone is marked at intervals until Mount Clemens is reached, where great damage was done and many persons injured.

The next heard from this storm is near Walkerville, Ont., 20 miles due south of Mount Clemens. The cyclone evidently expended its force after striking Canada, as no other reports of damage have been received.

After passing Dryden and Whigville, in Lapeer county, the next heard from the other storm was in Sanilac county, 20 miles away, at the village of Amador, which was nearly swept away. The funnel-shaped cloud struck a mile west of the village and in a path half a mile wide and 6 1/2 miles long, to the shore of Lake Huron, every building was more or less damaged.

Tuscola was also visited by a windstorm of cyclonic violence. Nearly every building in the path of the storm, which started near Clifford and traveled directly east for six miles, was destroyed. Joseph Malburg was hit by a flying board and instantly killed.

### FARMERS SUFFER.

**Wheat Crop in Many Parts of the State a Total Loss.**

Lansing, May 25.—The secretary of state has received from his regular crop correspondents nearly 400 special reports respecting damage to the wheat crop. These reports cover all parts of the lower peninsula. Nearly 300 are from the southern counties. It is evidently clear that in this section the crop is being very generally and seriously damaged. It is estimated the damage will now reach 20 per cent. The estimate for the central counties is six per cent, and for the northern counties three per cent. The damage, however, is not wholly chargeable to the Hessian fly. The wheat probably rusted, which explains the discoloration so generally reported. The heavy wind of Sunday, the 17th, broke the wheat down badly, but the insect cannot always be found in the break. In a number of counties some fields have been plowed up, and in others cut for fodder.

Owosso, May 24.—The reports from elsewhere in the state relating to the damage done wheat by the Hessian fly have caused the Shiawassee county farmers to investigate, and they find that all wheat throughout this county is seriously damaged by the insect. The crop never looked more promising at this time of year until a few days ago, and now wheat that gave promise of a 50 bushels to the acre yield will not produce one. The loss will be a heavy one to the farmers, since the acreage was never larger, and the slight advance in the price of wheat last month took all of last year's crop out of the county.

### SHOWS A PROFIT.

**State Gains \$73,754 in Revenue from the Uniform Tax Law.**

Lansing, May 23.—The operation of the uniform tax for liquor sellers passed by the legislature in 1895, has been satisfactory. As compared with the previous year, it shows a falling off in dealers in malt liquors of 1,404 and an increase in dealers in spirituous liquors of 917, and a net decrease in both of 487. The decrease in amount received for tax on malt liquors is \$402,407, while the increase for tax upon spirituous liquors is \$476,161, showing an increased revenue from the business of \$73,754. The previous tax was \$300 upon malt dealers and \$500 upon spirituous dealers. It is now uniform.

### Mines Start Up.

Negaunee, May 23.—The Prince of Wales mine, which has been idle since the panic of 1893, was first started up this week with a full force of miners, and will be regularly worked from now on.

Ishpeming, May 23.—The Foster mine will resume work in a short time with a full force. The Sawmill mine of the Cleveland Cliffs company, which has been idle two months because of flooding, has been pumped out and mining has been resumed.

### L'Anse May Not Rebuild.

Marquette, May 24.—There is little probability that the village of L'Anse will recover from the effects of the fire which two weeks ago wiped out half the town. Many business men who sustained loss will not rebuild, but the most discouraging fact of all is the reported intention of J. B. Smith to remove to Detroit. Smith's large sawmill and general store were the main enterprise and dependence of the village, and the decision not to rebuild leaves little for the future of L'Anse.

### Mint Crop Being Ruined.

Niles, May 25.—Owners of peppermint farms in southwestern Michigan are much alarmed over the ravages of cut worms and grasshoppers in the mint. The leaves are being eaten off, leaving the stem bare. Poison is being used to exterminate the pests, with no effect on the worms, and the grasshoppers are so thick that little progress can be made. Grave fears are felt that this new and thriving industry may be entirely ruined.

### Free Silver Convention.

Lansing, May 23.—Many responses are being received to letters sent out last week relative to the advisability of holding a mass free silver convention here July 16. As a rule the responses favor the project. It is noticeable that the petitions for the convention are being signed by republicans much more freely than by democrats. The latter are inclined to wait until after the Chicago convention, as they hope that silver will win out at that gathering.

### A Fatal Fall.

Benton Harbor, May 22.—Duncan MacKellar, a contractor, fell 25 feet from a scaffold to a concrete pavement, receiving fatal injuries.

### Poisoned Himself.

Coldwater, May 23.—Ambrose Bunell, 66 years of age, rendered despondent by poor health, committed suicide by poison.

### Died of Lockjaw.

Detroit, May 25.—Mrs. Albert Knox, of Ganges, stepped on a rusty nail and died of lockjaw.

### Fatal Accident in a Mine.

Bessemer, May 25.—Andrew Smith was killed by a fall of ground in the Palms mine here.

## Holland City News.

SATURDAY, May 30.

G. VAN SCHELVEN, Editor.

Congress is about to adjourn, the only thing still keeping it together is the fate the river and harbor bill may meet at the hands of President Cleveland. On Saturday last all the items in the bill were agreed upon by the two houses, and it was sent to the President in the evening. The general expectation is that he will return it with a veto message. As finally passed the bill carries \$12,850,000 in direct appropriations, and authorizes future contracts to the extent of \$59,000,000. All the Michigan items in the bill have been retained. It is in anticipation of a veto that Congress will continue in session until next week. The friends of the measure claim that they can override a veto both in the Senate and House, so overwhelmingly as to make it almost unanimous.

In the recent census bulletin issued by Hon. Washington Gardner, secretary of state, appears a comparative statement with reference to illiteracy in cities and in the rural districts, which is worthy of more than passing notice: The per cent. of native-born illiterates in the state as a whole was 29-10, but in the cities it was only 18-10. In other words, in the state at large there were 21 illiterates to the 1,000, and in the cities 14 to the 1,000, or more than 70 per cent against the country. If, therefore, the country rate of illiteracy could be reduced to the city rate, or what is the same thing, if the country level of intelligence, as measured by the reading and writing test, could be brought up to the city level, the number of native born citizens ten years old or more unable to read or write would be reduced over the whole state about 8,000 in number. This comparison is certainly not in accordance with prevailing opinion. How far it is supported by the statistics of other states, if at all, is hard to say; but there can be no doubt that the rural districts of Michigan in respect to common school education compare unfavorably with the cities and the country district school does not measure up to the educational demands of the day, as compared with the city schools, although the general impression is just the opposite.

It is now much too early to arrive at definite conclusions regarding the chances of any candidate for the gubernatorial nomination. The state convention which shall nominate the state ticket to be voted by the Republicans next November has not yet been called and probably will not be held until along in August. There is abundant time between now and then for many changes to take place as the result of changed sentiment or convictions. This being true, the better way is to keep cool and let the canvass go on in the interests of the various candidates without bitterness of speech or feeling.

It is a good thing to remember that these rival candidates and their partisan supporters are all members of the same party; all Republicans desiring Republican success in the state and nation. Let each be treated accordingly and let the party pass judgment upon each on his personal merits and not seek to build up the candidacy of one at the expense of justice and fair play to any other candidate.

This is the Republican way, and it is a good way. A straightforward, dignified canvass in the interest of each candidate will preserve harmony and unity, without which party success is always more or less imperiled. A clean canvass, and may the best man win! That is the way to talk.

When later in the season the state convention shall assemble to decide upon candidates for the state offices, every gubernatorial candidate but one will get left. The feeling should be such before and in the convention as to insure the most hearty and cheerful support of the successful candidate by his unsuccessful rivals. It is well to cultivate that feeling while proceeding with the canvass. It is good sense, good politics and good manners to do so.—Detroit Journal.

In view of the likelihood of President Cleveland vetoing the river and harbor bill, it is well enough to remember, writes a Washington correspondent, that in olden times all the "strict construction," or Democratic Presidents, as a rule, vetoed such bills. In those days they were generally called "international improvement bills."

In 1817 President Madison vetoed a bill which provided for the construction of roads and canals and the improvement of water courses. Monroe and Jackson vetoed similar measures. In 1844 congress passed an act "making appropriations for the improvement of certain harbors and rivers," and John Tyler promptly vetoed it as being unconstitutional.

In 1846 President Polk vetoed the river and harbor bill of that year on the same ground adopted by his predecessor. President Pierce, during his term, vetoed two general and five

special bills appropriating money for the improvement of rivers and harbors even going so far as to refuse his sanction to appropriations for public works already commenced under authority of prior laws.

Buchanan vetoed two measures, one for the improvement of the St. Clair flats and the other for removing obstructions at the mouth of the Mississippi river.

President Grant and Arthur also each vetoed a river and harbor bill, but this was by reason of their excessive amounts. The present bill is, as a whole, moderate and reasonable, and President Cleveland might better sign it, for the prospects are that it will easily be passed "the objections of the President to the contrary notwithstanding."

So far as we have been able to learn not one of the large audience that had gathered to spend "an evening with Shakespeare," at Lyceum Opera House, Tuesday night, came away dissatisfied or disappointed, or in anywise regretted the hour thus set apart. As a dramatic adaptation it stands unrivaled among the amateur productions of our town. Mr. C. A. Stevenson especially excelling in his role of Shylock, a Jew. The following was the cast of characters:

The Duke of Venice	Dr. F. M. Gillespie.
Antonio, "the merchant"	Prof. P. A. Latta.
Bassanio, "his friend"	Mr. F. A. Remington.
Gratiano, "a Venetian nobleman"	Mr. W. R. Lewis.
Salanio, "a Venetian nobleman"	Mr. Preston Scott.
Salarino, "a Venetian nobleman"	Mr. Geo. Shaw.
Clerk of the Court	Mr. Jas. Price.
Shylock, "a Jew"	Mr. C. A. Stevenson.
Portia	Mrs. L. M. Thurber.
Nerissa	Miss Addie Clark.

Besides the audience was also favored with solo's by the Misses Grace Yates, Emma D. Roberts, and Gertrude Alcott; duet, by Mrs. Geo. P. Hummer and Prof. J. B. Nykerk; solo, by Dr. A. C. V. R. Gilmore. The accompanists were Miss Maud E. Squier and Miss Amie Yates, and the music was rendered by Breyman's orchestra. Four well produced tableaux concluded the evening's entertainment. We should also add that at the urgent request of a large number of our citizens, the entertainment will be repeated at the same place on Monday evening, June 1st. Admission 25c. Seats reserved without extra charge at Breyman's on Monday morning.

John C. Post has a great spell of talking through his hat about the Holland harbor. Everybody knows it is useless to spend money on Holland. The sand bar out in the lake knocks 'em out; the current in our harbor, knocks the sand bar out. See!—Grand Haven News.

Usually, when the aforesaid "John C. Post has a great spell of talking," he says something, and sometimes it hits. His showing up last week of "the best harbor on Lake Michigan," with no shipping to use it, seems to have hit somebody.

We would move that the next time genial John C. Post of Holland visits our city, Mayor Stallings show him the beauties and advantages of "the best harbor on Lake Michigan."—Grand Haven Tribune.

Nodoubt the mayor would be able to show J. C. Post that there is plenty of room for business and improvements at "the best harbor on Lake Michigan."

"EVERY BODY," who knows the uselessness of "spending money on Holland harbor," probably means every body in Grand Haven. We are thankful that the rest of mankind feel differently towards Holland harbor, and that there is a prospect of the spending of enough money on our harbor to make it sufficient to accommodate our rapidly growing lake commerce.

And the beauty of the situation of Holland harbor is that permanent work can be done here. We have no majestic "Grand" to carry out millions of yards of sand and silt every spring when the floods go down, to be spread in an outside bar beyond the pier heads.

Although Thursday morning closed a bad night on Lake Michigan, with a heavy southwest gale and sea, our staunch and reliable steamer "City of Holland" came to her dock as usual, and the Soo City left at her regular time for Chicago in the evening.

The Atlantic Monthly is authority for the statement that school teachers get an average of only \$4.67 per week for women and \$5.67 for men per week counting fifty-two weeks to the year. No doubt these low wages are responsible for the fact that teachers remain in the work so short a time; and on the other hand it may be true also that the low wages are caused by the fact that so many young people take up teaching merely as a temporary makeshift, thus overstocking the market.

The longest distance that a cannon shot has been fired is a few yards over fifteen miles, which was the range of Krupp's well-known "monster" 130 ton steel gun, firing a shot weighing 2,000 pounds. The introduction of such war implements has a re-actionary tendency towards prolonging peace.

An adjourned session of the Reformed Classis of Michigan was held in this city, in Hope church, Tuesday, for the examination of Mr. Henry Huizinga, a graduate from the Western Theol. Seminary, and his ordination as missionary to India. After a most creditable examination in the afternoon, the installation took place in the evening. Prof. J. W. Beardslee, D. D., preached the sermon, and Prof. J. T. Bergen gave the charge to the ordained missionary. A farewell meeting will be held later.—Arrangements were also made by the classis for the installation of Rev. Geo. Z. Collier as pastor of the Second Ref. church, Grand Haven, and Rev. John M. Van der Meulen as pastor of the Second Ref. church, Kalamazoo. Application for the organization of a new American Reformed church, on Grandville ave, Grand Rapids, was received and referred to a committee consisting of Revs. W. Williamson and J. Lamar and Elder G. J. Kollen, for report at the fall session of the classis.

G. R. Democrat: Maj. J. C. McKee will leave this (Tuesday) morning for Macatawa Park, where he will assume again the management of the Macatawa Park hotel. His family will join him there June 1, the date upon which the hotel will open for the season. Mrs. Rider's old hotel has been open to guests for the past two weeks, and a number of Chicago people are already installed there for the summer. The new hotel will this year be able to care for many more guests than before, as the fourth floor has been finished off into rooms, and outside dormitories have been provided for the help. The dining-room has also been enlarged to seat 275 guests—near double the capacity of last year, when accommodations were found to be much inadequate. Numerous other improvements are under way around the Black Lake resorts, among which may be cited a large addition to the Jenison Park hotel, and an addition to the capacity of the electric lighting plant, whereby arc and incandescent lamps will illumine Ottawa Beach and Jenison Park in addition to those now strung through the groves of Macatawa.

Editor Bassett of the Fennville Herald was in the city last week, to meet with the committee, of which he is a member, that is to arrange for a proper celebration of the fourteenth anniversary of the founding of the Macabee Order in western Allegan and Ottawa counties. It is proposed to celebrate this anniversary by a grand reunion at the Holland resorts, and it is safe to predict that it will bring together the largest fraternal gathering ever seen at Macatawa Park. Excursion by rail and boats and reduced rates will help to swell the attendance and the officers and committees are hard at work on the details.

Appalling are the reports from the scene visited by the late cyclone. Meager as they are, sufficient is known that it is one of the worst disasters of our time. Those parts of the cities of St. Louis and East St. Louis, that were struck by the tornado were wrecked. It was virtually the merging of three cyclones into one. The number of lives lost cannot be much less than 600. The injured will be numbered by the thousands. Several steamers went down, with all on board. Fire added to the panic. The hurricane lasted about thirty minutes. Property loss is estimated at from 15 to 20 millions. Part of the famous Eads bridge is also in ruins. General relief may be called for.

### Marine Notes

The stmr. Lizzie Walsh loaded her consort at the Ottawa Beach steamboat dock Saturday with basket stuff, for Saugatuck. From there she went to Ludington after a cargo of hardwood lumber for the Holland furniture factory. The Lizzie looks well after her recent repairs. Bess Upton is in command of her this season.

The schr. F. L. Green with shingles for the Scott-Lugers Lumber Co., and the schr. Day Spring, with hardwood for the West Michigan Furniture Co., came in from Muskegon Saturday. The tug Ryerson followed them all the way from there to Holland harbor, to get the tow 16, and waited here for them until they were unloaded to get the tow out—that busy they are at towing in Muskegon harbor.

The schr. Stevenson brought in another cargo of lumber from Manistee, for Frank Haven.

The stmr. Music has commenced fitting out for the season's work. The schr. Sunrise was sunk on Friday last by a collision with a whaleback barge in tow of the stmr. W. H. Gratwick, in mid-lake, about 60 miles from Chicago. A boat was immediately lowered from the Gratwick and the eight members of the crew succeeded in getting into it before the Sunrise went down.

Chas. Blink's little lumber schooner was reported beached near Glenn pier last week. The report proved to be false.

## Heart Disease Cured

By Dr. Miles' Heart Cure.

Fainting, Weak or Hungry Spells, Irregular or Intermittent Pulse, Fluttering or Palpitation, Choking Sensation, Shortness of Breath, Swelling of Feet and Ankles, are symptoms of a diseased or Weak Heart.

MRS. N. C. MILLER.

Of Fort Wayne, Ind., writes on Nov. 23, 1894: "I was afflicted for forty years with heart trouble and suffered untold agony. I had weak, hungry spells, and my heart would palpitate so hard, the pain would be so acute and torturing, that I became so weak and nervous I could not sleep. I was treated by several physicians without relief and gave up ever being well again. About two years ago I commenced using Dr. Miles' Remedies. One bottle of the Heart Cure stopped all heart troubles and the Restorative Nervine did the rest, and now I sleep soundly and attend to my household and social duties without any trouble.

## Life Made Easy

For Another Holland Citizen—Many People Talking About It.

A typical Hollander is Mr. Jacob Molengraaf, who resides on E. Fourteenth Street. Our representative found him still unable to speak English, but his son interpreted for him, and the following is an account of his experience, which he gives for publication. No better proof for the citizens of Holland can be found than the utterances and endorsement of our neighbors. He says:

"I was a great sufferer during all last winter where you put your hands when you stand with them placed on your hips. It was worse in the morning, and I was sometimes in such pain I could not get out of bed in the ordinary manner, but would have to sort of roll out, keeping my body as straight as possible, and I would be compelled to walk stooped over until I got gradually straightened out, when I would feel a little easier. This continued in this way until I commenced taking Doan's Kidney Pills. I had seen them advertised, so I procured a box at the drug store of J. O. Doesburg, and on taking them they gave me almost instant relief. I continued using them and I have not been a sufferer since. I have every confidence in Doan's Kidney Pills. They have proved to be just as represented. If ever I should have any return of the trouble I shall know what to use. It pleases me to be able to speak a good word for them."

Doan's Kidney Pills are not a cure-all, but a Kidney Cure, and that they do cure all forms of kidney disorder it is not hard to prove to the people of Holland, for we can give them the endorsement of their neighbors, and this must satisfy the most skeptical.

Doan's Kidney Pills are for sale by all dealers—price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, Doan's, and take no other.

## SPORT AT NILES.

Horse-Racing and a Baseball Tournament in June.

Niles, May 23.—The events at Gephart's driving park in this city during race week, from June 8 to 13, under the auspices of the Niles Jockey club, will constitute an era in the sporting history of southern Michigan. Here in Niles, where nothing like it has ever taken place, expectation is at its height. There will be horse racing every day at 2:30 p. m., with four races each day.

The Niles Derby will be run on Thursday, June 11. Several of the crack three-year-olds are entered in this event.

A tri-state baseball tournament, in which clubs from Michigan, Indiana and Illinois will participate, has been arranged and a game will be played every morning on June 8, 9, 10, 11, 12 and 13 at 10:45. The baseball events are under the direction of Tom Farley, of Chicago. Some of the contesting teams are undecided as to the day that will be most convenient for them to play, but the schedule and all details will be completed in a few days.

## BOOTH'S CAPTOR DEAD.

Lieut. L. B. Baker, Who Caught the Assassin of Lincoln, Expires.

Lansing, May 25.—Lieut. Luther B. Baker, who, as an officer in the government detective service, had charge of the party which captured J. Wilkes Booth, the assassin of President Lincoln, died here Saturday, aged 66 years. Lieut. Baker was the first to strike Booth's trail as he crossed the Rappahannock. He demanded the assassin's surrender at the barn and was the only person who conversed with Booth before the barn was fired. He was also the first person to reach Booth after Corbett shot him, and received his dying message to his mother. The horse Buckskin, which Baker rode on the occasion of Booth's capture, died here a few years ago, and his stuffed frame is in the museum at the Agricultural college. The story of the pursuit and capture was related by Lieut. Baker from the lecture platform many times during the last eight years.

## WAR ON FORTUNE-TELLERS.

State Supreme Court Pursues Them Under an Old English Law.

Lansing, May 25.—According to an opinion of the supreme court handed down Tuesday, fortune-tellers will be likely to give Michigan a wide berth in the future. One Arthur Elmer, while pretending to foretell the future at Ionia, advised a woman to leave her husband for the reason that while in a trance he had seen him in the act of killing her. Elmer was arrested as a disorderly person and convicted. The supreme court affirms the judgment of the court below, and emphasizes the English statute which says that "every person pretending or professing to tell fortunes shall be deemed a rogue and a vagabond."

## CONDITION OF BANKS.

The six new banks represent a capital of \$153,036, the aggregate being \$12,671,154. The total loans and discounts, stocks, bonds and mortgages are \$69,746,425, an increase of \$1,714,190, and the total resources \$85,556,297, an increase of \$585,607.

## JUDGE LONG'S SUIT.

Government to Ask the Supreme Court to End the Pension Case.

Detroit, May 25.—Assistant United States Attorney General Conrad will apply to the United States supreme court for abatement of the suit brought by Charles D. Long, justice of the Michigan supreme court, against ex-Pension Commissioner Lochren, to compel restoration of Judge Long's pension to its original rating. The government will claim that the suit was brought against Judge Lochren personally and not against his office. Judge Long's attorney will go to Washington to resist the motion.

## Rich Copper Ore Found.

Petoskey, May 27.—Men boring for a well on Leroy Lang's farm at Mud Lake, three miles east of here, struck blue ore-bearing copper rock at a depth of 50 feet. Grains of free copper almost pure were found in abundance among the borings. Excitement prevails among those interested in the property laying along the vein.

## Temporarily Embarrassed.

Albion, Mich., May 25.—The Elms Buggy company Saturday morning filed chattel mortgages aggregating \$81,000 to secure its creditors. Local banks are the principal creditors. The company has ample assets and will continue business. Slow collections and dull trade are the cause of the embarrassment.

## Warehouse Floor Collapses.

Benton Harbor, May 24.—The floor of the Big Four warehouse, No. 2, gave way Saturday under the weight of 400 tons of pulp. The warehouse, which is nearly new and the largest of the company's here, is nearly wrecked. The damage will amount to several hundred dollars.
